Provider ID#218742

**4 Lecture Hours Available.**

**No prior level of skill, knowledge, or experience is required (or suggested)**

*Course designed for physicians and dentists and other healthcare professionals*

**Objectives:**

- Identify demographics of patients more likely to become violent.
- Describe an effective interview of a potentially violent or suicidal patient.
- Identify acute symptoms associated with an increased risk of violence or suicide.
- List three types of trauma symptoms identified in the Impact of Events Scale-Revised, and give examples of symptoms that may be seen after abortion.
- Indicate how the Impact of Events Scale helps to identify the specific traumatic event associated with the pregnancy loss.
- List four spiritually based abortion recovery programs studied by Layer (2004) and Jaramillo (2017).
- Identify the specific symptoms that showed statistically significant improvement following the spiritually based programs studied by Layer, et al. (2004) and by Jaramillo (2017).
- List reasons dying patients may request a hastened death.
- Discuss strategies for medical professionals to use for addressing reasons dying patients may request a hastened death.

- Discuss the moral and ethical obligations for physicians when responding to requests for hastened death.
- Discuss the importance of worldviews and the future of medicine.
- Describe the nobility of patient centered medicine.
- Discuss the concepts of worldview and public policy.
- Describe the broad outlines of Hippocratic and Plutonic worldviews as they relate to healthcare.
- Articulate the key tenants of the Hippocratic Oath.
- Describe the historic role of spirituality and faith in healthcare.
